4. [] CI Staff, and [] met with members of the staff of the Joint Committee on Atomic Energy and Mr. [] briefed them with respect to our information on the [] case. Members briefed were John Conway, Commander Edward J. Sausser, and George Murphy. While these staff members appeared satisfied that there was no evidence to date to indicate the involvement of any Restricted Data, it was clear that they were still smarting from their inability to extract any information from the Atomic Energy Commission on this case. A request was made that we provide the staff with a summary of the information provided at the briefing. It was pointed out that the FBI should be the primary source of information on this case, but after repeated requests, the staff was advised that this was a matter which would require approval of the Director inasmuch as the FBI had been designated as the Executive department handling the case.

5. [] Talked with Robert Smart, House Armed Services Committee, regarding the possibility of briefing the House CIA Subcommittee this week prior to the Director's departure. Smart said he thought this would be impossible in view of the schedule of other hearings by the Committee, however, later in the day the Director talked with Chairman Vliessen and arrangements were made to brief our Subcommittee at 2:00 P. M. on Monday.

6. [] Julius Cahn, Staff Director of the Senate Government Operations Reorganization Subcommittee, called and asked for any guidance we might give him concerning [] a scientist who has contacted Senator Humphrey on the subject of disarmament. I told Cahn I would look into the matter and be in touch with him.
